Dr. Brian Hoh

Executive Summary

2013 Joint Cerebrovascular Section Annual Meeting/SNIS International Endovascular Stroke Conference (IESC) February 3-5, 2013, Sheraton Waikiki, Honolulu, Hawaii

Introduction

The 2013 Joint CV Section/SNIS meeting in Honolulu represented the first time the CV Section and the SNIS had teamed up for a combined meeting for several years, and was an overwhelming success. The pre-conference workshop on February 3rd attracted 71 attendees with several attendees coming over from the recently completed Joint Mt. Bandai Symposium Neuroscience/Pan-Pacific Neurosurgery Conference a day early on the islands. The meeting itself on February 4th and 5th had 531 attendees, far more than anticipated, given the remote location. With excellent programming and planning by Ketan Bulsara and Don Heck, the meeting evaluation responses were very positive. Attendees noted comprehensive neurovascular topics, balanced discussions on treatment options, high caliber national and international lecturers, and appropriate time for questions and discussions.

Association with the ISC Meeting

Feedback from attendees favored continuing this meeting just prior to the ISC Meeting, which will be held in San Diego in 2014. We did receive approval to hold the meeting prior to the 2014 ISC, including the date prior to the ISC Meeting, during which they traditionally hold their Nursing Symposium. The fee for having a satellite meeting at the ISC this year was \$2,500. However, we have been informed that the fee for having a sponsored satellite conference next year will be \$15,000. So this must be taken into account when planning the budget for next year. Fortunately, the costs associated with running a meeting in San Diego will be greatly reduced compared to this past year in Honolulu.

Attendee summary

The majority of the attendees at the meeting were physicians (368 physicians). There were a relatively high percentage of these attendees who were not members of the JCVS or SNIS. However, this is most likely attributed to the Pacific Rim neurosurgeons that came over for the Pan-Pacific Neurosurgery conference, and the invited international speakers.

183 Members of JCVS/SNIS

95 Non-members

90 Fellows or residents

26 Nurse / tech

127 Industry

10 Staff

531 attendees (368 physicians, 26 Allied health, 137 other)

Meeting financials

	<u>Total</u>	<u>Budget</u>
Income		
Sponsorships	164,000.00	150,000.00
Exhibit Fees	57,500.00	60,000.00
Registration Fees	138,125.00	75,000.00
Advertising	3,000.00	0.00
Total Income	\$ 362,625.00	\$ 285,000.00
Expenses		
Audio/Visual	48,217.06	35,000.00
Awards/Gifts	0.00	1,500.00
Consultants & Contractors	41,175.37	26,250.00
Food & Beverage	217,864.79	125,000.00
Lease/Rental	14,611.86	500.00
Miscellaneous	0.00	500.00
Postage & Shipping	11,102.00	10,000.00
Printing & Duplicating	14,313.88	12,000.00
Production & Development	4,116.00	3,300.00
Supplies	2,894.67	500.00
Telephone, Internet, Utilities	56.92	150.00
Travel, Meals & Lodging	20,201.99	20,000.00
Total Expenses	\$ 374,554.54	\$ 234,700.00
Net Operating Income	\$ -11,929.54	\$ 50,300.00
Indirects - Meeting administration (staff coordination)	\$ -30,331.00	
Total balance	\$ -42,260.54	
Deficit for JCVS	\$ 21,130.27	
Deficit for SNIS	\$ 21,130.27	

Including all income and expenses, the meeting ran at a total deficit of \$42,260.54. In reviewing the budget breakdown, we exceeded expectations in sponsorship and registration fees, but expenses exceeded the targets. Originally we projected a meeting attendance of 250, and this was the number used to project the estimated food and beverage cost for the meeting. By far, the Food and Beverage costs were the primary reason for exceeding budget estimates. This included over \$21,000 for the Faculty/Sponsor dinner (118 attendees), the opening reception cost of \$70,000, with the remainder totaling the costs of the breakfasts, breaks, and lunches for the three days (averaging \$60,000 per day).

Summary

The total meeting attendance and feedback on the high quality programming of this meeting exceeded expectations, and this is a strong foundation for future meetings. Although the meeting financially ran at a deficit, the primary reason was that we had twice the attendance that was anticipated, nearly doubling the food and beverage expense. This higher cost was not proportionally defrayed by the registration fees. Venue costs for San Diego in 2014 will be considerably less; therefore the budget forecast for next year is more favorable.

Cerebrovascular Research Award Update – 2013

As Chair of the Robert J. Dempsey, MD, Cerebrovascular Research Award, I am pleased to report the Cerebrovascular Section of the American Association of Neurological Surgeons and The Congress of Neurological Surgeons once again awarded two \$15,000 Resident Research Awards in Cerebrovascular Disease in 2012-13. There were a record number of applications this year. All were outstanding, but judged to be winners of this award for 2012-13 are:

Dr. Stanley Hoang of Stanford Hospital and Clinics for his study, “Effects of optogenetic neuronal stimulation of the primary motor cortex on axonal outgrowth, synaptogenesis and angiogenesis following cerebral ischemia”, and Dr. Luis Enrique Kolb from Yale-New Haven Hospital for his study, “Whole Exome Sequencing of Sporadic AVM”. Winners of this award will be acknowledged at the 2014 AANS/CNS Cerebrovascular Section Meeting.

The reviewers for the past year were: Drs. Robert Dempsey, Robert Friedlander, Mustafa Baskaya, Dandan Sun, and G. Edward Vates. We appreciate their help and hope they will be able to continue in the future.

The Joint Section has taken on the responsibility of fundraising to establish ongoing funding. Assuming the funding will again be successful, information and applications for the 2014 award will be sent to program directors, neurosurgery journals, and appropriate websites in October and November, with applications due by March 1, 2014. We look forward to another year promoting resident research.

Sincerely,

Robert J. Dempsey, MD
Chairman and Manucher J. Javid
Professor of Neurological Surgery
Department of Neurological Surgery
