INTERNATIONAL PARTNER

Dear Colleague,

Greetings!

We are pleased to announce that this year the AANS/CNS Joint Cerebrovascular Section Annual Meeting will include collaborative programming from SNIS and the Federacion Latinoamericana de Sociedades de Neurocirugia (FLANC). In advance of the International Stroke Conference in Houston, TX, this meeting continues its consistent commitment to excellence in the neurosciences and patient care, and growing collaborations in cerebrovascular treatment.

To that end, this year's two-day meeting will provide outstanding programming across a wide range of topics. Headlining the educational tracks are session blocks dedicated to complex cases, acute stroke care delivery, avenues to research funding, translational research, as well as an informative session on complex open vascular surgery cases.

In addition to scientific sessions, specific meeting highlights include the popular annual Luessenhop Lecture, this year given by Dr. Robert Harbaugh. Beyond featured sessions, attendees will have plenty of opportunities to interact with industry through several sponsored symposia, as well as in the Exhibit Hall. And, just to ensure a little respite from such an ambitious agenda, the program committee has planned the Taste of Houston reception with a myriad of indulgences for your enjoyment.

As the neuroscience field continues to evolve in ways that significantly impact medicine as well as patient care, it is more important than ever that we nurture our opportunities for partnership and collaboration. Through our collective clinical and institutional knowledge, as well as our mutual commitment to and passion for advancement of treatments that can revolutionize the quality of cerebrovascular care, we are endowed with a great responsibility. We trust this meeting will provide opportunities to glean more insights and create new intersections of thought that will further inspire us to carry out our respective missions, and meet our full potential as difference-makers in the neurosciences.

See you in Houston!

Taste of Houston Reception

Houston, the fourth largest city in the country, is a diverse city rich in history, boasting a constantly evolving culture, beautiful historic neighborhoods, modern skyscrapers, world-class activities, and great food & drink. The size and scope of the city provides an opportunity to enjoy some of the finest culinary experiences anywhere in the United States. Join us as we meander through the tastes and smells of Houston!

What would a Taste of Houston be without some BBQ? The smokers will be blazin' as you bite into some hickory-smoked brisket glazed in traditional Houston BBQ smoked-kissed flavor.

Street tacos are a smaller, more agile taco that are adapted to life on the street and make up for their smaller size with greater flavor. Enjoy Baja Shrimp, Tacos al Pastor and Barbacoa Braised Beef street tacos before you head out for the night.

If you've been to Houston and somehow have not eaten any queso, you actually may be dead. While nearly any molten cheese dip is good molten cheese dip, Houston does queso right so step up to our nacho bar and create your own masterpiece.

We look forward to hosting all of you at the down-home, flavorful, finger-lickin' good Taste of Houston reception!
